

READY TO FOCUS Specialized Assessment – Students & Academic Performance

Included in assessment:

- 6-8 hours in length
- Administered directly by Dr. Jeff Van Meter or Brad Oostindie at any Ready To Focus or Legacy Clinical Consultant office
- Assessment summary provide for your records

The specialized assessment for academic performance and learning styles provides a detailed analysis of the brain as it relates to academic performance Included is the following:

- 21 site locations measured via the neurofeedback equipment to assess the brain's ability to process, retain, and produce information.
- Neuropsychological testing including IQ, Academic, Behavioral, Continuous Performance, and Visual Motor testing.

This assessment is designed to provide parents and teachers all the information they need to accurately assess cognitive functioning as it relates to academic performance (including identification of learning disorders and development of a treatment plan to address them).
